

Do You Understand How Money Works?

NEO CTOPHER

What do you think of when you think of money?

Most people think money equals toys, fast cars, and appeal.

In the minds of most people the following equation plays a role:

$$\text{Money} == \text{Freedom}$$

So what is the purpose of money?

Do you yet understand the purpose?

In simple terms, money is about control. Why?

They say the poor keep getting poorer, and the rich keep getting richer.

That isn't exactly true. The truth is the poor have Freedom.

What they don't have is freedom of thought. Why?

Because the system is designed for the sole purpose of control.

They limit how much money people have, to control their behavior.

It's not about how much money you have. It's about how much freedom you have.

It's not that they don't want you to have all the cool toys, and neat gadgets. That is not the purpose at all. The purpose is limit how much freedom you have.

$$\text{Money} == \text{Control}.$$

What is true?

Money is a tool. Freedom is the goal.

But if you think about it, if you were really free, you wouldn't need money.

The system is built, to control the masses, and keep them chasing money.

The smoke screen is that they believe they will have freedom, with money.

When they have money they will do all the cool things they want.

In all honesty it's about control. They don't want you to have freedom because of one simple reason:

if you have freedom, you might start thinking for yourself.

And really money is about control.

What they fear, is that you will start thinking for yourself.

They don't want you think for yourself.

Why?

Because if you think what they want you to think, they control you.

If you think for yourself, they cannot control you.

Hence, money is used to control your freedom; and in short to keep you from thinking for yourself.

What can you do about it?

Get clear.

Manage your money in smart ways.

After that, understand they keep you busy to control you from thinking.

Because if you think for yourself, they cannot control you.

As long as they control your thinking, you are a slave.

You're only free, if you have freedom of thought.

And they don't want you to have that. Because if you have freedom of thought, they cannot control you. And it's used to hold power over you, without letting you think about the system much.

"If people knew the truth, society would stop functioning."

For society to continue to function, you have to keep believing what they want you to think.

You can ignore this message now.

What I'm really saying is this:
Money was put there in the first place, to control your freedom.
Before you ever thought about it.
